##### Windows

1. Go to Windows Settings
2. Go to Update & Security
3. Check for Update

##### MAC

1. Go to Menu Bar
2. Select Vendor Software
3. Update

#### Ensure operating system updates are set to automatically download and install

##### Windows

1. Windows 10 users automatically receive updates by default.

##### MAC

1. Go to Apple Menu
2. Select System Preferences
3. Click "Check for Updates"
4. Install any pending updates

#### Ensure third party applications and services are removed if no longer needed

##### Windows

2. Review installed third party programs
5. Remove programs no longer needed

##### MAC

5. Go to Finder
6. Go to Applications
7. Review installed third party programs
8. Remove programs no longer needed

## Ensure third party applications and services are updated

1. Open third party application(s)
2. Check for Updates
3. If option not available, check application's website for latest version

## Ensure firewall is ON for ALL networks

### Windows

1. Go to Start
2. Search "Windows Firewall" under Control Panel
3. Select each network profile (Domain, Private, Guest)
4. Turn ON

### MAC

1. Go to System Preferences
2. Go to Security & Privacy
3. Go to Firewall
4. Click lock icon in bottom-left corner: Enter credentials
5. Turn ON

## Ensure University-approved antivirus is installed

1. Uninstall all non-University-approved antivirus programs.
2. Download and install University-approved antivirus from:

- 1.

2. Go to <https://www.southalabama.edu/departments/csc/informationsecurity/resources/encryptionprocedure.pdf>
3. Follow instructions provided on the webpage
